

TechINK Announces

# Platinum *Advantage SK*

Pushing the boundaries of wide format high resolution solvent based digital printing inks

**Platinum Advantage SK** mild solvent inks are designed for use in Konica Minolta printheads in printers using bulk ink systems.

**Platinum Advantage SK** delivers quality performance, contains a wide colour gamut with advantages in blues and reds, displays new extra-refined, high gloss and quick drying properties and features outstanding outdoor durability through colour technology. At the same time it is also environmentally conscious with low smell.

These ultra refined inks have a shelf life of 18 months.

## State-of-the-art inks for optimum results

From extensive testing and research, the following comments have been drawn:

**“Peace of mind: healthier ink alternative”**  
(environmentally conscious)

**“Great ink permanence”**  
(outdoor durability)
