

# Platinum Advantage SK

## Product Data Sheet

TechINK Platinum Advantage SK digital printing mild solvent inks are designed for use in Konica Minolta printhead technology for the wide format high resolution market. Features include wide colour gamut with strategic advantages in blues and reds, high gloss, backlighting, welding and adhesion to styrene capabilities. These ultra refined inks include improved high speed printing and drying rate. Platinum Advantage SK is the next generation of digital printing inks, an environmentally conscious solution with low smell and no cyclohexanone. These new generation inks have an extended shelf life of 18 months.

<b>Product:</b>	TechINK Platinum Advantage SK
<b>Identification:</b>	Solvent-based pigmented digital printing fluid
<b>Colour:</b>	Cyan, Magenta, Yellow, Black, Light Cyan, Light Magenta liquid
<b>Product Classification:</b>	Digital printing fluid
<b>Packaging:</b>	1 litre bottles with black caps

### Shipping Requirements

<b>Hazardous Identification:</b>	Regarded as non-hazardous cargo according to IATA Standards
<b>Temperature in Transit &amp; Storage:</b>	+5 to 35 °C
<b>Proper Shipping Name:</b>	Printing liquid

### Operational Specifications

<b>Viscosity @ 22 °C:</b>	12 cPs ± 1
<b>Temperature:</b>	20 to 28 °C
<b>Relative Humidity:</b>	40 to 80% Non-condensing
