

TechINK Announces

# Platinum *Advantage* SK

Pushing the boundaries of wide format  
high resolution solvent based digital printing inks

**Platinum Advantage SK** mild solvent inks are designed for use in Konica Minolta printheads in printers using bulk ink systems.

**Platinum Advantage SK** delivers quality performance, contains a wide colour gamut with advantages in blues and reds, displays new extra-refined, high gloss and quick drying properties and features outstanding outdoor durability through colour technology.

At the same time it is also environmentally conscious with a low smell.

These ultra refined inks have a shelf life of 18 months.

From extensive testing and research, the following comments have been drawn:

**“Peace of mind: healthier ink alternative”**  
(environmentally conscious)

**“Great ink permanence”**  
(outdoor durability)

***State-of-the-art inks for optimum results***
